

Society for Conservation Biology (SCB)

Austral and Neotropical America (ANA) Section

Who is ANA?

ANA is the regional section of the Society for Conservation Biology (SCB), gathering members from Central and South America and the Caribbean, all of whom are interested in working together to conserve the biodiversity in the region.

Why you should join?

For only \$10*, you get:

- Online access to top scientific journals in conservation
- Membership to an international scientific society
- A network of people working in conservation in Latin America

** This price and benefits only apply for residents of the region*

How do I join?

To join, go to the website (www.conbio.org/join/), join the Society for Conservation Biology, and select ANA as your regional section.

For the fastest updates, join us on **Facebook** and **Twitter** (see below).

Publications you get free

- Conservation Biology & Biological Conservation (top 2 conservation science journals in the world)
- Conservation Magazine (award winning environmental magazine)
- NeoCons (neo-tropical conservation e-newsletter)
- quarterly newsletter of SCB

Learn more @ www.conbio.org
